

# WHERE THE WALK IS A WORK OF ART

## Historic Route (Approx. 2.5 miles long)

Walk the living work of art as Hamilton's guests would have done and admire the way the garden buildings and views unfold before you. Please be aware that this route has areas with uneven surfaces, unmade paths and steep inclines.

## Accessibility

The marked accessible routes avoid unmade paths and grass areas. However, please take care as there are some uneven surfaces and slopes. Painshill offers pre-booked buggy tours and wheelchair hire. Please visit the Grotto via the exit to avoid the steps. Service dogs are allowed in all areas. A disabled toilet is at the Visitor Centre.

Walk the whole landscape and treat yourself to tea and cake in the Gothic Tower Cafe. Please check the opening times beforehand.

Don't miss the hidden Hermitage. Legend has it that Hamilton's hermit only lasted three weeks as a recluse before he was spotted drinking in the local inn.

Thousands of crystals, including originals recovered from the archaeological work, have been used to restore the Crystal Grotto. (restricted opening times)

The narrow openings of the Gothic Temple frame the 'living painting'. Stand inside for outstanding views.

## Staying safe

On your visit please be aware of open water and bridges. Take care on uneven surfaces and steep slopes. Picnics are very welcome but we kindly request that you do not eat within the garden buildings. Please do not leave litter, use gazebos, BBQs or light fires. Drone flying is not permitted. In an emergency please call the Duty Manager on 078 450 14002.

## Family visits

Painshill makes a wonderful family day out. Make sure you stop by the natural play area and pick up outdoor activity cards at the Visitor Centre. Scooters and bikes are allowed for the under fives only. Please supervise your children at all times.

Dogs are very welcome at Painshill. Please keep your dog on a short fixed lead. Dog waste bins are available throughout the landscape.
